Warnings

READ BEFORE USING
YOUR SEGA VIDEO GAME SYSTEM

Epilepsy Warning

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games may induce an epileptic seizure in these individuals. Certain conditions may induce undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game — dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions — IMMEDIATELY discontinue use and consult your physician before resuming play.

Owners of Projection Televisions

Still pictures or images may cause permanent picture-tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection TVs.

About Audio Connectors

If the Audio connection is made to your television from the Sega CD, the Mixing Cable must be used to connect the headphone output jack on the front of the Genesis to the MIXING input jack on the rear of the Sega CD. If the Audio connection is made to your television from the Sega Genesis (using either the RF cable or a Video Monitor cable), the Mixing Cable must NOT be used.

STARTING UP

1. Set up your Sega CD and Sega Genesis™ systems and plug in control pad 1.
 2. Turn on your TV or monitor, and then turn on your Genesis. The Sega CD logo should appear.
- NOTE: If nothing appears on screen, turn the system OFF, make sure it is set up correctly, and then turn it ON again.*
3. Open the disc tray or CD door. Place the game disc into the disc tray, label side up. Close the tray or CD door. When the Sega CD logo is on screen, press START to begin the game.
 4. Whether using Sega CD alone or with a 32X, **you must always insert Disc 1 first**. If a 32X is detected, you must then insert disc 2 and press start again to access the 32X CD version.
 5. As the story unfolds, take a few moments to learn about Fahrenheit and the dangerous rescue mission you're about to embark on.
 6. Press START to display the Options screen.

TAKE COMMAND

BUTTON	ACTION
Start	Starts/pauses game to give you a description of where you are in the building. You may also find hints about your current situation here.
D-Pad:	Controls your movement: On screen arrows blink as you consider each possible path.
• left	Moves player left
• up	Moves player forward
• right	Moves player right
• down	Turns player around in a dead end (Level 3 only)
Button A	Left text choice
Button B	Middle text choice
Button C	Right text choice
A + B + C + Start	Reset

Look for your oxygen meter on the left side of the screen. The meter has 10 units of air which decrease one unit approximately every 30 seconds. Each level has its own way to increase or decrease your O₂ level instantly.

PLAYING WITH

You're a recent graduate of the Fire Academy, you've been trained to handle the most dangerous and challenging situations. The firefighter's credo has been drilled into you: "People, Environment, Property." As a member of the rescue company your priorities at an incident are as follows: your first priority is the evacuation of anyone trapped or remaining at the scene; safeguard against threats to other firefighters and the environment by locating hazardous, explosive and

flammable materials and finally secure property. While you graduated at the top of your class and had the thrill of rescuing people in your training exercise, nothing can prepare you for the real thing!

Lucky for you, you've been transferred to Station 13. Your fellow firefighters are a tight knit crew of seasoned veterans, when in doubt — trust their experience. You know that in a fire you've got to rely on the other members of your company and they on you. You've got to be able to think on your feet — keep your priorities straight in the midst of chaos... let's see what you've learned.

FIREHOUSE #13

The Firefighters:

You

Rookie Rescue Specialist — leader of the rescue company. Saved three lives your first time out. You're stepping into Chavez' old job.

Chavez

Station 13 Chief — a consummate professional. He's willing to give you a break, but he won't let you endanger the other firefighters or civilians.

Washington

Forcible Entry Expert — works inside with you as part of the rescue company.

McGuire

Ventilation Specialist — also a part of the inside rescue company.

Hobbs

Captain of the hazardous material company — he'll help you deal with and dispose of any haz-mat.

Stinky

Engineer — a veteran who's seen it all, the Chief's right hand man. Always knows how to be in the right place at the right time. Listen to him.

LIVE LEVEL 1

A house is on fire and the owner's daughter MAY be inside...

You must first find the girl. You're racing against time. The longer you take, the more O₂ you'll expend. Fire damage can block access to other areas of the house. To complete Level 1 you must:

- Find both hazards before going upstairs
 - Find the daughter
 - Exit the house

Bonus points: search the house for other items:
including an escape route

O₂ You receive oxygen when you dispose of each hazard. You lose oxygen when you test doors.

House floor plan

Start
Here

Easy mode: You don't have to find the hazards first.
Hard mode: No extra O₂ from hazards!

VILLE 2

A hotel is on fire and a woman is inside trying to save her pets...

A tenement hotel is on fire, a long time resident — a doddering old lady — has refused to exit and has gone in search of her pet birds. As the flames rip up the side of the building, your job is to find Mrs. O'Hara and her bird. Your instinct tells you they're both behind locked doors. You may have to test each one to avoid deadly fire traps.

To complete Level 2 you must find the following hazards:

- Rescue the lady
 - Rescue her bird

Bonus points: Search hotel for any possible hazards.

O₂ You receive oxygen every time you dispose of a hazard. You lose oxygen every time you test a door.

Hotel floor plan

10

A mad scientist has taken over
the university...

LEVEL
3

The science blocks of a university are under a state of siege and a professor of physics has finally snapped. He has started a chain reaction of booby traps in the basement and tunnel levels of all the buildings.

To complete Level 3 you must:

- Find the bomb and defuse
- Shut off power
- Capture the Professor

Bonus points: Find the valuables hidden away in bunkers.

O₂

1 extra O₂ unit is awarded when entering Bonus Rooms. If you exit, your entire tank will be refilled.

Sega of America, Inc., warrants to the original consumer purchaser that the Sega CD compact disc shall be free from defects in material and workmanship for a period of 90 days from the date of purchase. If a defect covered by this limited warranty occurs during this 90-day warranty period, Sega will repair or replace the defective compact disc at its option, free of charge. This limited warranty does not apply if the defects have been caused by negligence, accident, unreasonable use, modification, tampering or any other causes not related to defective materials or workmanship.

To receive U.S. warranty service, call the Sega Consumer Service Department at this number:

1-800-USA-SEGA

To receive Canadian warranty service, call the Sega Canadian Consumer Service Department at this number:

1-800-872-7342

DO NOT RETURN YOUR SEGA CD COMPACT DISC TO YOUR RETAIL SELLER. Return the compact disc to Sega Consumer Service. Please call first for further information. If the Sega technician is unable to solve the problem by phone, he or she will provide you with instructions on returning your defective compact disc to Sega. The cost of returning the compact disc to Sega's Service Center shall be paid by the purchaser.

Repairs after Expiration of Warranty

If your Sega CD compact disc requires repairs after termination of the 90-day limited warranty period, you may contact the Sega Consumer Service Department at the number listed above. If the technician is unable to solve the problem by phone, he or she will advise you of the estimated cost of repair. If you elect to have the repair done, you will need to return the defective merchandise, freight prepaid and insured against loss or damage, to Sega's Service Center with an enclosed check or money order payable to Sega of America, Inc., for the amount of the cost estimate provided to you by the technician. If, after inspection, it is determined that your compact disc cannot be repaired, it will be returned to you and your payment will be refunded.

Limitations on Warranty

Any applicable implied warranties, including warranties of merchantability and fitness for a particular purpose, are hereby limited to 90 days from the date of purchase and are subject to the conditions set forth herein. In no event shall Sega of America, Inc., be liable for consequential or incidental damages resulting from the breach of any express or implied warranties.

The provisions of this limited warranty are valid in the United States and Canada only. Some states do not allow limitations on how long an implied warranty lasts, or exclusion of consequential or incidental damages, so the above limitation or exclusion may not apply to you. This warranty provides you with specific legal rights. You may have other rights which vary from state to state.

A SEGA TRUVIDEO PRODUCTION

SURGICAL STRIKE™

SEEK AND DESTROY!

In the future, war will be fought on an open battlefield. High-tech urban guerrillas will attack out of nowhere and then fade back into cities and villages to hide among the innocent population. To ferret out this invisible enemy without causing civilian casualties, the nations of the world have banded together to create an elite special forces unit,

The Surgical Strike Team.

❖ You're in total control of a highly maneuverable hovercraft that can zoom straight on, turn to explore new paths, or spin 180 degrees to face an attack from behind!

❖ Choose your weapon! Pepper terrorist snipers with a 30MM gatling gun or fire laser-guided rockets to take out enemy tanks with pinpoint accuracy.

❖ Access on-board electronic mapping to detect hidden emplacements while a targeting AWACS system provides you with up-to-the-minute intelligence.
